Dear Mike Ryan and who it may concern,

I ordered an MM8 tool box from you several months ago, invoice number 30549. It arrived to its destination in Ohio in a timely manner, well wrapped and ready to go. I on the other hand was still living in CA raising needed financial support to come to Ohio and start service as an apprentice mechanic for MMS Aviation to maintain, modify and repair Christian organizations missionary aircraft.

This past December, my wife and I arrived in Ohio and I started in the hangar just after the New Year. So after several months of waiting I was able to un-pack and set up my new tool box! I just want you to know that I'm thrilled with it! Thank you for the great deal on it and the extras that you threw in. It is all very much appreciated! Thank You...Thank You!!! The box is the envy of many of other guys in the hangar and I've received many complements and praise of it. Thank you for producing a quality tool chest that that should last a lifetime.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jason Heath' or 'Jake', written in a cursive style.

Jason Heath (Jake)
